FasTrak 7-Day NLP Practitioner® Certification Training

Today, there is a major business opportunity to make money while you help your company, business, or clients to reach their goals as a Certified NLP Coach. NLP trained professionals are in demand the world over. It is a great investment for your future!

Neuro Linguistic Programming (NLP) is the most practical, results-oriented technology for detecting, understanding and getting in control of our conscious and unconscious thinking. We will show you how to use this with self and others - individually and as a coach.

Using the technology of Neuro Linguistic Programming (NLP), and Time Line Therapy®, and Hypnotherapy, you can become certified in each of these technologies, as well as NLP coaching, in only 7 days. Tad James is the creator of the accelerated NLP training format, the creator of Time Line Therapy®, and the author of 7 books in the field. We offer a seven day certification.

Think about it - you don't have 2 weeks or even 28 days to become a certified NLP Practitioner, so do it in just 7 days! Become an NLP Coach today in the course designed for the busy professional!

When you successfully complete this training you will receive Four Certifications:

1. NLP Practitioner
2. Time Line Therapy® Practitioner
3. Hypnotherapist
4. NLP Coach

1. NLP Practitioner Certification

- Fundamental beliefs that allow you to begin to choose the empowering Mind Mastery model and leave behind the disempowering Mind Servitude model
- To identify and take control of the intricate connections between your mind, your emotions and your behaviour
- The clearest and easiest model of how people learn, communicate, change, and evolve

The principles of achieving goals used by all successful goal setters

- Discover how what we see, hear, feel, smell and taste has an influence on our physical response (whether we are conscious of the process or not)
- People have different preferences for how they use the 5 senses to process information internally. Learn how to match this to create instant rapport and mutual agreement
- Identify and learn how eye movement reflects a person's real thoughts

The words you use show off your intellectual attributes and your personal characteristics. The words we use are chosen unconsciously but they have a special meaning for each individual.

- Recognize what type of personality is hiding behind different types of words
- Customize your speech for each individual to achieve instant acceptance and wavelength communication
- Use abstract language to achieve instant agreement and induce trance easily
- Ask the 3 questions that can help you to reveal specific information about any concealed subject (like a presenting problem)
- Challenge and overcome objections elegantly
- Assist someone in changing their mind

Anchoring - How to control your feelings and your state of mind

- Be in charge of your internal emotional state rather than being controlled by it

- Link your strong personal resources with your ability to access them whenever you want
